Dowser, Artist, and Labyrinth Designer

Marty Cain

"Water Dowsing – How I Do It.

A Conversation with Marty Cain."

Biography:

After receiving her BA from the University of NH and her MA and MFA degrees from the University of Iowa, Marty went on to become an active member of the Boston arts community for twenty-one years, exhibiting her work in numerous galleries, creating environmental sculptures in state parks and other public spaces. She was a founding member of the Boston Sculptors at Chapel Gallery and helped create the Reclamation Arts Group. She served on boards of cultural organizations including The Boston Visual Artists Union, The Massachusetts Cultural Alliance, The Cambridge Arts Council, and One Percent Commission, The Institute of Contemporary Art and The New Art Center of Newton. She has taught in leading art institutions including the School of the Museum of Fine Arts and Tufts University.

As a child Marty learned dowsing from her Lithuanian grandfather, Frank Witkus. In 1986 she attended the American Society of Dowser's school and convention in Danville, Vermont where she added formalized dowsing to her life. She became a lifetime member of the American Society of Dowzers, where she co-directed the National Convention's Beginning Dowsing School for six years. She is a member of the Living Waters Chapter in NH and served on the board of the Appalachian Chapter in NC. Last year alone she dowsed more than 45 water wells in NC.

Marty presents labyrinth and dowsing workshops, consults, writes, and collaborates with the earth energy and angelic realms to co-create contemporary sacred spaces for individuals and institutions. She has received grants from the National Endowment for the Arts, Blanche E. Colman Foundation, the Edna St. Vincent Millay Colony and Boreal/Art/Nature of Quebec, Canada. Her art works are celebrations of nature, taking the form of portrait drawings, site-specific environmental sculptures, photo/drawing

collages of her installations and ancient sacred sites. Her labyrinth designs are located across North America (from Maine to California and Canada to Hawaii), Brazil and South Africa. She was a founding member of the Labyrinth Society.

Environmental Energy Dowsing harmonizes, blocks and transforms disruptive earth energies in building structures and land areas, creating a higher energy frequency environment in those locations. Environmental energy dowsing identifies Positive and Negative Vortexes and through the application of cures, can block or convert Negative

Vortexes into Positive Vortexes. Environmental dowsing also identifies Geopathic Stress Lines, Interference Lines, Hartman and Curry Lines and can neutralize or eliminate their disruptive effects. Environmental Dowsing helps raise the energy frequency in building structures and land areas promoting greater health and well-being in people's lives.

Space Clearing involves purifying and eliminating entities, energies and forcefields created by thought forms and emotional energy from land areas or building structures. Space clearing also involves helping beings from the earth or those who may have transmigrated to the earth from other dimensions and have become trapped in the earth plane. Space clearing helps assist these beings return to a realm best suited for their continued advancement. This includes carnate and discarnate entities associated with people who have made the change called death who may not have made their transition to higher realms of Light. However, the focus of this virtual chapter will not involve Spiritualism or efforts to engage in ongoing communication with any beings from other dimensions or people who have died.

ASD invites Environmental Energy Dowzers and Space Clearers interested in participating in this Focus Group to email Robert Callan at robert@dowsingdesign.com and provide him with a brief summary of your experience in Environmental Energy Dowzers and/or Space Clearing. Please include your full name, address and phone number. All interested parties will be notified of your acceptance as a member of this new focus group. If you have questions about this focus group please email or call Robert at 612/868-2887.
