"Melinda Inn's crystal grids provide a dimension of healing goodness in alignment with clarified, beautiful intent. Melinda creates each grid by dowsing the most beneficial subtle energy arrangements, with remarkable distant healing results. The entire time my grid was up and running, I looked forward to every opportunity to be still, and bask in the beautiful energies. I felt a discernible boost of vitality and groundedness, as well as a release of some energies no longer needed. Melinda's crystal grids are such a blessing!"

– Cynthia Sue Larson author of *Reality Shifts*

Environmental Energy Dowsing harmonizes, blocks and transforms disruptive earth energies in building structures and land areas, creating a higher energy frequency environment in those locations. Environmental energy dowsing identifies Positive and Negative Vortexes and through the application of cures, can block or convert Negative

Vortexes into Positive Vortexes. Environmental dowsing also identifies Geopathic Stress Lines, Interference Lines, Hartman and Curry Lines and can neutralize or eliminate their disruptive effects. Environmental Dowsing helps raise the energy frequency in building structures and land areas promoting greater health and well-being in people's lives.

Space Clearing involves purifying and eliminating entities, energies and forcefields created by thought forms and emotional energy from land areas or building structures. Space clearing also involves helping beings from the earth or those who may have transmigrated to the earth from other dimensions and have become trapped in the earth plane. Space clearing helps assist these beings return to a realm best suited for their continued advancement. This includes carnate and discarnate entities associated with people who have made the change called death who may not have made their transition to higher realms of Light. However, the focus of this virtual chapter will not involve Spiritualism or efforts to engage in ongoing communication with any beings from other dimensions or people who have died.

ASD invites Environmental Energy Dowsers and Space Clearers interested in participating in this Focus Group to email Robert Callan at robert@dowsingdesign.com and provide him with a brief summary of your experience in Environmental Energy Dowsers and/or Space Clearing. Please include your full name, address and phone number. All interested parties will be notified of your acceptance as a member of this new focus group. If you have questions about this focus group please email or call Robert at 612/868-2887.
