Dave the Mystic
(David Barnett)

An energy medicine practitioner, healer and intuitive with over 35 years' experience in Colorado

He has multiple technical degrees and is truly a rocket scientist. In the early 1980's, Dave had some turning points in his life that led to a passion in discovering and developing his gifts in multiple forms of energy healing. He embarked on a path of training in many modalities and developing conceptual understanding of how the different systems work, complement each other and support spirituality. Dave has gifts in healing, reading the Akashic Records, energy and entity clearing, changing core beliefs, Karma burning, and discerning spiritual gifts. Dave continually seeks out new modalities, learns and experiences them from their practitioners and frequently highlights these on his weekly web radio show. Dave is a strong believer in health issues having many potential causes in different energy planes. Dave works with many spiritual guides and communicates with them freely.
