USING DOWSING AS AN AID IN DECISION-MAKING

Dowsing is more than finding water! It is your connection to your higher self and to Source.

Lately I have been asked by people how to apply their dowsing to help them make decisions in these continuing uncertain times. This month we will explore how to develop the correct dowsing questions in the areas that concern you. Staying safe while travelling is one such area that has been brought to my attention. Please think about and bring decision areas that you would like to explore.

Underneath our concerns is the emotion of fear; fear that we will get Covid, fear that the world will shut down again, or a host of other fears. We will look at the energy of fear and see what we can do with it. Please think about and bring your fears too, but don't give them to me all at once!!

Also, I have simplified my Apple a Day for personal use, and would like to share my changes with you.

In addition, if you have any questions about anything in any handout I have written this is the perfect class to bring them forward.

Bring your "Letter to Robin" dowsing booklet, dowsing tools, your questions, and an open mind. Materials will be available for those who do not have them and will also be available for purchase.

About the Instructor...

As a dowser for 40 years, Jeanne applies dowsing to health, psychological and spiritual well-being. She has been fortunate to learn from dowsing mentors and is also blessed with her own healing intuition. Jeanne co-founded the Southwest Dowsing Conference and was also the American Society of Dowsers (ASD) Regional Coordinator for several years. She was a long-time member of ASD and has been a frequent presenter at dowsing chapters, Regional Conferences & ORI She was named the ASD 2015 Dowser of the Year.

Please note that it is against the law to diagnose or treat an illness unless you are a licensed medical professional. The information we gather is intuitive, and our good judgement must be used in its application.

Environmental Energy Dowsing harmonizes, blocks and transforms disruptive earth energies in building structures and land areas, creating a higher energy frequency environment in those locations. Environmental energy dowsing identifies Positive and Negative Vortexes and through the application of cures, can block or convert Negative

Vortexes into Positive Vortexes. Environmental dowsing also identifies Geopathic Stress Lines, Interference Lines, Hartman and Curry Lines and can neutralize or eliminate their disruptive effects. Environmental Dowsing helps raise the energy frequency in building structures and land areas promoting greater health and well-being in people's lives.

Space Clearing involves purifying and eliminating entities, energies and forcefields created by thought forms and emotional energy from land areas or building structures. Space clearing also involves helping beings from the earth or those who may have transmigrated to the earth from other dimensions and have become trapped in the earth plane. Space clearing helps assist these beings return to a realm best suited for their continued advancement. This includes carnate and discarnate entities associated with people who have made the change called death who may not have made their transition to higher realms of Light. However, the focus of this virtual chapter will not involve Spiritualism or efforts to engage in ongoing communication with any beings from other dimensions or people who have died.

ASD invites Environmental Energy Dowzers and Space Clearers interested in participating in this Focus Group to email Robert Callan at robert@dowsingdesign.com and provide him with a brief summary of your experience in Environmental Energy Dowzers and/or Space Clearing. Please include your full name, address and phone number. All interested parties will be notified of your acceptance as a member of this new focus group. If you have questions about this focus group please email or call Robert at 612/868-2887.
