**Our Summer Potluck Picnic has been rescheduled for September 17**

**September 17 Dowsing Gathering - POTLUCK PICNIC**

*Everyone is welcome on Saturday September 17th to join us in exploring the world of dowsing while sharing in good food and companionship. We will be meeting this year at Weaver Park off Merrimon Ave. in north Asheville at 11am.*

The actual address is 200 Murdock Ave. near the turn off to UNCA. The nearby tennis courts are visible from Merrimon Ave. It is behind Luella's Bar-B-Que. There is a wonderful covered shelter we have reserved for the day and walking trail along a creek as well as ball fields etc.

There will be games and instruction to hone your dowsing skills. Homemade coat hanger dowsing rods will be provided.

It is a potluck affair so bring a favorite dish, munchies or dessert and join us for fun, sharing and learning. The world of dowsing is a gateway into one's intuition and a method of asking and gaining information about life's many questions. Looking forward to seeing you!

Bill Muerdter, Vice President and all of us!

**Does One Dowser Have All The Answers?**  
**Group Dowsing for Multiple Perspectives**  
**with Steve and MaryAnn Orsary**

There is a story about six blind monks who meet an elephant on the road. Each one takes hold of the grand animal in a different spot and reports what s/he perceives. One grabs a tusk, another an ear, others the trunk, leg, tail, belly. Each reports what they find. Is an elephant smooth and sharp; wide and flexible; lithe and dexterous; solid and strong, thin and fuzzy; or broad and leathery? They are all correct. There is power and accuracy in each one's unique perspective. And none have the full picture.

Group dowsing can offer different perspectives while dowsing the same questions, issues or health concerns. We will focus on questions people bring to the session, and ask for group participation in perceiving the nuanced range of our collective answers. Put all of the monks' perceptions together and you have a more complete vision. Your voice matters. Maybe you will find something that no one else does. (Likely so!) And someone else may perceive something you do not. Bring your pendulum or other dowsing tool and join the exploration for a fun, participatory dowsing experience/practice!

**Steve** is a shamanic practitioner and healer who uses dowsing in his healing work. He has a strong connection to the spirits of nature, communes with the presence of Mount Tamalpais and leads hikes to power places there.

To provide deeper care for clients, **MaryAnn** became a licensed MFT and trained in the Hakomi method of somatic psychotherapy. She brings warmth, sensitive listening skills, and deep intuitive perception to her work.

**Both** are Certified Bioenergy Balancing and Attunement practitioners. Steve and MaryAnn combine male and female representations of profound care and have been dowsing in their healing practice for over 35 years. With special guest

Dowser and Handwriting Expert  
Donna-Lee Powers

“The Power to Change Your Life by Changing Your Handwriting”

A technology that is sorely needed in our tumultuous, rapidly evolving world.

Imagine what it would be like to clean out the detritus of your past, be free to jumpstart a more self-fulfilling life and create greater Harmony in your world?

With every stroke of your pen, set an intention. By subtle shifts in the shape of your ABC's, spacing and size, you can re-write old programming.

Donna-Lee will be introducing the work of Vimala Rodgers who, at the age of 2, “knew” people through their handwriting. And who went on to develop an alphabet system designed to enhance every aspect of life.

With simple letter changes we can shift attitudes that are creating stress in our lives, access deeper connections to our intuitive knowing and support ourselves in the midst of all the changes around us!

What to bring to the party:

- 1-copy of the attached Vimala font (enlarged many times is preferable, for finger tracing)
- 2-a sample of your ordinary everyday handwriting (for you)

3-unlined paper and ballpoint pen (no pencil or markers)

4-Curiosity! This is not about judging self or others.

Donna-Lee's Bio:

When asked what brings me joy, learning, especially anything to do with healing and metaphysics.  
Takes center stage.

In 1992, after years of exploring varied healing modalities and metaphysics, (while working as a flight attendant for 34 years), I found my happy place with dowsing and Vimala's handwriting studies and continued to study with Vimala for over 20 years.

More importantly, like many dowsers, I love to share what I've learned if it will help others. I enjoyed sharing this technology for many years at the West Coast Dowsers' Conference.

ASD is requesting volunteers step up and show their interest in being on the Board of Trustees.

ASD especially needs a Secretary and Treasurer. These are working positions and require 10 volunteer hours per month. ASD also needs volunteer monitors to assist with our monthly virtual calls. We are actively looking for volunteers to help organize the 2023 Annual Convention.

**Environmental Energy Dowsing** harmonizes, blocks and transforms disruptive earth energies in building structures and land areas, creating a higher energy frequency environment in those locations. Environmental energy dowsing identifies Positive and Negative Vortexes and through the application of cures, can block or convert Negative

Vortexes into Positive Vortexes. Environmental dowsing also identifies Geopathic Stress Lines, Interference Lines, Hartman and Curry Lines and can neutralize or eliminate their disruptive effects. Environmental Dowsing helps raise the energy frequency in building structures and land areas promoting greater health and well-being in people's lives.

**Space Clearing** involves purifying and eliminating entities, energies and forcefields created by thought forms and emotional energy from land areas or building structures. Space clearing also involves helping beings from the earth or those who may have transmigrated to the earth from other dimensions and have become trapped in the earth plane. Space clearing helps assist these beings return to a realm best suited for their continued advancement. This includes carnate and discarnate entities associated with people who have made the change called death who may not have made their transition to higher realms of Light. However, the focus of this virtual chapter will not involve Spiritualism or efforts to engage in ongoing communication with any beings from other dimensions or people who have died.

ASD invites Environmental Energy Dowsers and Space Clearers interested in participating in this Focus Group to email Robert Callan at [robert@dowsingdesign.com](mailto:robert@dowsingdesign.com) and provide him with a brief summary of your experience in Environmental Energy Dowsers and/or Space Clearing. Please include your full name, address and phone number. All interested parties will be notified of your acceptance as a member of this new focus group. If you have questions about this focus group please email or call Robert at 612/868-2887.
