Dowser and Author

Jerry Gin

Harmony, Subtle Energy and Healing

In Jerry's studies of Egyptian Bio geometry, he learned that BG3 energy contains the quality of harmony.

Jerry has found that harmony is also a component of the function of 3-6-9 energy and the I Am energy. He has experimented in capturing this harmony energy for the purpose of healing.

As a result, Jerry developed a system to amplify the BG3 and 3-6-9 vibrational energy qualities which produce harmony, a precursor to healing.

We will learn about the levels of these energies in various symbols and structures. These structures can be put into geometric arrays which generate almost any level of BG3 and 3-6-9 which one may want to create.

Since the energy quality of harmony can help in healing, this information is important and useful. One can not only use the energies in healing, one can harmonize environments, foods, water, supplements and however one wants to use the symbols and structures.

One can create energy levels from the hundreds of BG3 units to over a million. At these levels, one can activate water within seconds and perform other amazing feats.

Environmental Energy Dowzing harmonizes, blocks and transforms disruptive earth energies in building structures and land areas, creating a higher energy frequency environment in those locations. Environmental energy dowzing identifies Positive and Negative Vortexes and through the application of cures, can block or convert Negative

Vortexes into Positive Vortexes. Environmental dowzing also identifies Geopathic Stress Lines, Interference Lines, Hartman and Curry Lines and can neutralize or eliminate their disruptive effects. Environmental Dowzing helps raise the energy frequency in building structures and land areas promoting greater health and well-being in people's lives.

Space Clearing involves purifying and eliminating entities, energies and forcefields created by thought forms and emotional energy from land areas or building structures. Space clearing also involves helping beings from the earth or those who may have transmigrated to the earth from other dimensions and have become trapped in the earth plane. Space clearing helps assist these beings return to a realm best suited for their continued advancement. This includes carnate and discarnate entities associated with people who have made the change called death who may not have made their transition to

higher realms of Light. However, the focus of this virtual chapter will not involve Spiritualism or efforts to engage in ongoing communication with any beings from other dimensions or people who have died.

ASD invites Environmental Energy Dowzers and Space Clearers interested in participating in this Focus Group to email Robert Callan at robert@dowsingdesign.com and provide him with a brief summary of your experience in Environmental Energy Dowzers and/or Space Clearing. Please include your full name, address and phone number. All interested parties will be notified of your acceptance as a member of this new focus group. If you have questions about this focus group please email or call Robert at 612/868-2887.
