- In this workshop you will learn multiple ways of locating root and other relevant causes of issues and how to resolve them in a way that insures that they do not repeat.
- You will dowse using multiple charts. You will also learn how to integrate your dowsing and other healing modalities as EFT, Emotion Code, and Timeline Therapy to name a few.
- Then you will learn how to go deeper into origins of whatever is currently bothering you beyond what you remember about the triggering event, repeating pattern, etc. This is because what is not addressed repeats.
- After this, you will go into limiting beliefs, judgments, attitudes, addictions, shadow issues, archetypal issues and more.

You must already know dowsing basics and be able to use them. Have a pendulum, water and pen and paper with you. Come prepared to work as this is a very experiential workshop. workshop and meeting will be recorded by Roxanne and sent out after editing.
