Use of Tuning to Multi-Dimensional States of Being

You are a multi-dimensional being, which means you have the ability to move into any dimensional realm at any time by simply placing yourself with the proper vibrational state of being. You ask how do you do that? Simple, everyone does it automatically without even realizing that they do it. Learning to become consciously aware of the fact that we are instinctively wired to operate this way will assist you in taking greater control of your life.

Examples of dimensional frequency shifting include:

Music  
Colors  
Thoughts  
Feelings  
Reading

i.e. all of your senses assist in tuning you to different vibrations which shift your dimensional state of being.

What examples can you think of?

Conscious control of your vibrational state involves you actively monitoring your activities.

### Creative Process

Being the creative God in your life means living in 5D versus 3D

The three keys are:

- Imagination
- Intuition
- Creativity

The key to imagination is the ability to visualize and immerse yourself within what it is you are seeking to achieve.

Intuition is one's divine connection to source. Intuition resides within your own inner divine connection to source. Intellectual thought or intuitive guidance.

We connect to source from one of two avenues of being, either thru group/mass consciousness or your own inner consciousness. This is how our bodies, shells, avatars (what ever term you would like to describe them with) survive and thrive in physical form, by drawing energy from source.

All of creation draws energy from source either directly or indirectly.

We as pure energy beings feed either directly from source; or you feed indirectly, by feeding or energizing ourselves by utilizing energy harvesting indirectly Different ways this is accomplished is:

eating, walks in nature, listening to music drawing energy from other people. The whole good versus evil. Good people seek to draw from source. Evil ("live" backwards) goes to source indirectly by feeding off of other people, instead of seeking to go directly to source.

Creativity is your tool and ability to knowingly influence your personal world around you. You engage your intellect to consciously create the world you want to reside in and experience.

We all have these gifts or abilities, the world challenges or attempts to discourage you from discovering your talents. Your task is to find dominion in your life and ascend beyond the illusionary limitations.

You use these 3 keys of imagination, intuition, and creativity to follow the flow of life by 1) Imagine what it is you want, 2) Allow Source to guide you with intuitive knowledge, 3) Use your creative abilities to manifest (this is where your dowsing abilities assist you in discerning and creating) your desires.

Conscious creating is a 5D action. When you are using the ability to consciously create you elevate yourself into a 5D realm or vibrational state of being.

All are Gods or a fractal portion of source in that we all have the ability to create reality in which we are living.

Often our limitation or failure to create effectively, occurs because we do not know our ability. If you knew, that you knew you would succeed than you would already be there.

Hence the idea of imagining you already are what you want to be.

Now that's all good, but what does it have to do with dowsing?

Glad you asked.

Affirmations are used to consciously create a better life for yourself, the catch is are you creating thru the an external connection to source ie going thru the beliefs of the mass consciousness or are you connecting to source directly?

With that in mind lets look at Knowing versus Believing  
Test your faith in the words and on what dimension do they reside. Dowse

To believe	To Know
3 or 5	3 or 5
Duality	Oneness
Intellectual	Experiential
Brain	Heart

The old adage paraphrased "In all thy knowing, know thy self".

Not only are you connected to source you are source expression of the God/Goddess.

God/Goddess said "I AM THAT I AM" God/Goddess knows itself.

To strengthen your affirmations let's use the words

I know I am \_\_\_\_\_ (insert)

Next lets discuss an additional way to strengthen our conscious creation affirmations.

Our bodies are constructed to resonate either at an external vibratory rate or an internal self directed vibratory rate.

Dimensions are simply various frequencies or levels of vibration.

All things in creation are vibrational, every thought has a vibration that it generates. These thoughts from all the various dimensions and expressions create vibrational spaces which are accessible for anyone to tune into. These vibrational dimensions are accessible to you by simply placing your consciousness at that specific energy level. One of our unique abilities is to resonate at a given frequency by placing our thoughts on that subject. Where or thoughts go energy follows.

Now remember, we live in a universe that functions by granting support to what our thoughts and energy are generating. What frequency we are resonating at, the genie in the lamp starts immediately creating for us by aligning the universe to bring to us sychronicities to fulfill that which we seek.

We can enhance our success by tuning to specific dimensions that are optimum for certain areas of focus. It stands to reason that if you tune to a specific frequency you should be able to draw on that energy to empower your own convictions. It would also stand to reason that at these vibrational

frequencies there would be other conscious beings, some who are experts, in the given area of interest. Hence why not call upon their knowledge to guide and assist you in gaining success in those areas

At the same time by placing your thoughts at a specific vibration means your energy field will tune to that energy and resonate at that specific frequency. The more you practice tuning to these other dimensions you enhance self-mastery for your life.

Self-Mastery is the ability to hold your field at a vibratory rate of your choosing.

Tuning to the dimension of the experts and resonating at varied dimensions for optimal success.

Every area of interest carries a dimension on which resides experts and knowledge on any subject you may want to explore. Here are a couple:

Knowing is a 5<sup>th</sup> dimension energy  
Financial experts is a 11<sup>th</sup> dimension energy  
Health experts is a 26<sup>th</sup> dimension energy

How to tune to the proper dimension?

Perform using your desired dowsing tool of choice.

- 1) Focus your intent on what it is you are seeking to know about.
- 2) Do you clearing can I, may I, should I exercise.
- 3) Ask on what dimension do the experts in your field of interest reside.
- 4) State I tune my vibration to (insert the dimension dowsed in step 3)
- 5) Begin asking your questions on what you want to know or state what it is you are seeking assistance with.
- 6) Conclude the session by thanking them for their assistance.

Alternatively you can bypass experts and simply tune to your higher self if you desire.
